

VISUAL GRAPHIC SYSTEMS – Concurva®, Linea®, Aerolinea®

The VGS product line offers coordinated displays in various sizes and formats – small “item identifiers”, CounterToppers®, wall mounted displays and large freestanding floor stands within each design series all work together for a unified look.

VGS fixtures feature the exclusive MagaLens system, simply lift the durable Lexan® cover and install your laser and inkjet prints in seconds! There’s no need to laminate, mount, or protect graphics. Ordinary inserts look special in the sleek contemporary designs. In addition to black and silver, you may select from mahogany, walnut, natural finishes.

Made of durable steel or extruded aluminum, VGS products feature powdercoated or anodized finishes and tough Lexan® lenses that keep them looking new even in the toughest commercial environments.

Exclusive MagaLens System
